

MOTHERHOOD IS THE BEST GIFT

Women of the World Platform and the undersigning entities declare that:

- 1.- **Motherhood is the best gift** not only for a woman and her family but for the whole society that should rejoice with motherhood, respect it, support it and celebrate it. **Motherhood is a social good that must be protected.**
- 2.- **Motherhood is a plus** in the personal and professional development of women.
- 3.- **Attachment parenting strengthens the relationship between mother and child**, helping the emotional stability of both. **The exclusive dedication - temporary or permanent** - to the family, favors the development of the children and the family stability so necessary for a prosperous society, and **cannot continue to be undervalued.**
- 4.- **Motherhood should always be a source of joy** for the family, even in adverse circumstances, and for this **it should have the necessary social and political support.**

"Motherhood and childhood are entitled to special care and assistance" (United Nations General Assembly, 1948). Universal Declaration of Human Rights" (217A [III], Article 25[2]).

Motherhood is the best gift and it should be so for all women throughout the world and in all circumstances. It is therefore necessary to provide the **social, economic and political means** to ensure that

- ✓ Motherhood is not a reason for **employment discrimination**
- ✓ Motherhood and dedication to the family does not imply **discrimination or loss of social recognition.**
- ✓ It is not a reason for **illness or death**
- ✓ It does not entail a **hindrance in professional life or a reduction in salary**, if it is not due to a choice to reduce the working day.
- ✓ **Is not forced** or a reason for effective loss of freedom within the family environment
- ✓ **Is not the object of hire or purchase**

The Women of the World Platform and the undersigned entities consider that in order to achieve these objectives, the **Geneva Consensus Declaration** (2020) is a correct roadmap for all societies respectful of women, their dignity, their identity, their development and health.

We therefore call on all countries that have not yet done so to join this Declaration, which has already been signed by 35 nations around the world.
